BRUSH:

For the safety and protection of our employees and equipment, we do require that branches and tree trimmings be no greater than three inches (3") in diameter and be cut, tied and bundled in four foot (4') lengths weighing no more than forty to fifty pounds (40-50 lbs.) No containers over 45 gallons.

WHAT IS A YARD? HOW DO I MEASURE IT?

The truck collecting the debris will measure for you. The hopper at the back of the truck holds two yards at a time. Four cubic yards (4 yd³) equates to WM filling the hopper twice. Residents must remove all acceptable items from public view until the following month's bulk pickup.
